

YPSILON AIR CONNECT

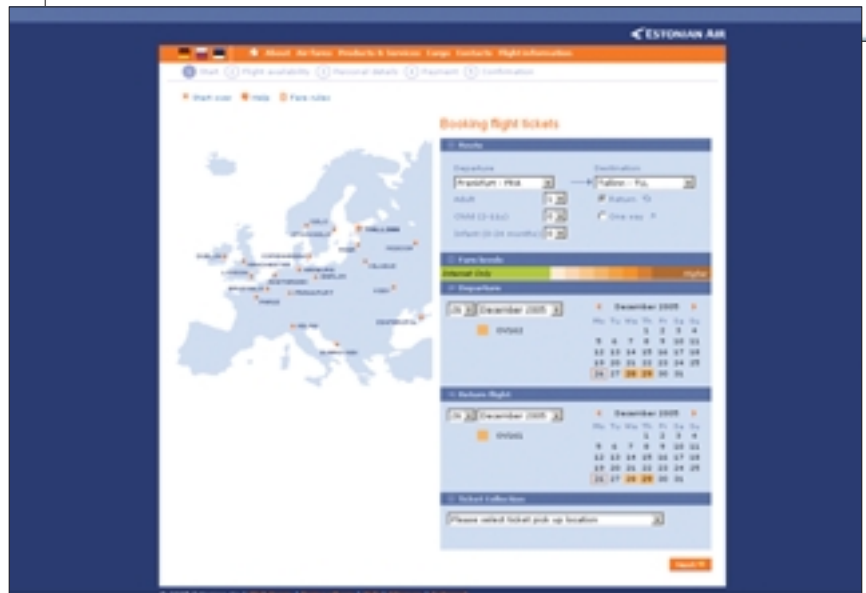

Ypsilon Air connect: The flexible booking engine for Airlines.

Ypsilon.Net AG has designed and hosted several Airlines internet reservation systems in key markets as diverse as Germany, Russia, Poland, Austria, Hungary, Ukraine, Czech Republic, Romania, Spain, France or Austria. Airlines such as Alitalia, KLM, British Airways, Estonian Air, Malev, Royal Brunei or Deutsche BA trusted the Ypsilon technology to sustain efficient and profitable online operations. The Ypsilon Air Connect booking engine provides multi-lingual, multi-currency, multi-market point-of-sales support; code share, airline alliance functionality and O&D control routing validation.

In order to constantly stay on top of industry advancements, Ypsilon Net continually invests in product research, development and software engineering giving airlines access to the most advanced internet technology at all times.

Airlines need to rely on strong professional hardware infrastructure and the Ypsilon provides exactly the robust industrial strength required for high traffic airline web based reservation systems.

The screenshot shows the Alitalia website's booking engine displaying a list of available fares for Frankfurt to Rome. The table below shows the results.

Airline	Outbound Flight		Return Flight		Fare Type	Price + Tax EUR
	Stops	Flight Duration	Stops	Flight Duration		
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	218 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	228 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	328 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	338 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	388 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	398 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	408 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	418 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	438 + 46,-
Alitalia	Direct	01:50	Direct	02:10	Regular Fare	448 + 46,-

Below the table, there is a note: "BOOKING VIA ENCRYPTED CONNECTION (SSL). To protect your personal data we recommend you to book via a secured connection (SSL), which is the default. If you encounter any problems with this please deactivate the little checkbox "encrypted connection (SSL)"."

Main features:

- Integration with GDS or proprietary airline reservation system.
